WHERE DID WE GO?

About

By Holly Robinson

Dear Reader,

A group of students, from years 8 and 9 have put time into making this magazine about everything that's gone on this year. We are covering as many topics as we can.

One is, Sports Day: there were many students from each form, from years 7-10, which covered many sports, these included:

- 100m
- 200m
- 400m
- 800m
- 1500m
- Triple jump
- Long jump
- Shot-put
- Javelin
- Discus
- Relay

Also we will be talking about the top books to read: Kiera Birch and Holly Robinson give us some of the best books this year and their opinions on them.

There is also a page about the flamingo land trip coming up - including who will be going and what you can do there.

Another topic we are covering is about Malet Lambert, including, what the timetable of the day is and the sanctions, recognition and class expectations.

There are many other topics we are covering.

I hope that you will find this a great read.

Yours Sincerely,

The Magazine Team

Once again the school year had been a very successful, interesting and exciting; with the new school building the school has provided every pupil with every opportunity they can.

Nine News

“Thank you for a fabulous year... great effort by everyone and this shows in your position in the league table! Well done from your proud tutor!”

“As you begin KS4 consider; the top grades are any one’s to climb up and take, you just need the confidence to try, and remember the man who makes no mistakes does not usually make anything at all.”

“Well done for trying so hard in your English exam. I am proud of you. Miss Betts.”

Enterprising Year 9s

There have been so many enterprising activities that Year 9 have taken part in this year. Here is a brief rundown of the activities. Back in November 2012, Year 9 pupils were performed to by the Middle Theatre group to raise awareness of the raising participation age as the first cohort to stay in education or training until the age of 18. Also in November ‘12, Year 9 pupils took part in the Global Entrepreneurship week at Hull University. Whilst there, they had to build the highest freestanding “spaghetti tower”. Lots of potential was shown by all. In the afternoon, pupils were given junk to develop an eco-friendly product – some really imaginative ideas were displayed.

In March 2013, Year 9 were involved in a wide range of activities during National Careers Week 2013. They worked on CV’s, learnt about how businesses use the “digital world”, the importance of volunteering and how to stand out from the crowd. 30 Year 9’s spent a morning being inspired by Action Jackson. All pupils also attended a careers fair, where over 20 local colleges and training providers were giving careers advice.

In June 2013, Year 9 pupils were invited to attend the Yorkshire International business Conference at Hull Truck Theatre. They listened to inspirational speeches from 6 local, successful young entrepreneurs. 15 pupils from the year group then attended the Youth Enterprise Summit, the key speaker was Ruth Badger, ex “The Apprentice” finalist.

Also in June 2013, Malet Lambert Year 9 pupils were invited to attend an Enterprise conference in Grimsby. The 6 pupils had to turn a cardboard box into an ecologically friendly product. With a tight 2 hour deadline to invent, then build a prototype, the pupils worked brilliantly to produce the “LAWN BUDDY”. A solar powered, remote controlled, lawn mower which had the strap line, ‘making chores fun’. They were awarded first place.

The Year 9’s have also been involved with the Royal Marines, when they took over PE lessons to encourage team work.

A group of pupils also attended the Sewells academy where they were involved in construction work. This helped pupils develop employability skills.

Who seeks shall find

As we come to the end of Year 9, I am incredibly proud of all of you. As we move onto Key Stage 4, I want you to keep asking questions, keep seeking new experiences, keep striving to achieve the best you can be! Each one of you has improved whether it is academically, socially or your behaviour and attendance. Each one of you needs to consolidate these successes and build upon them next year! I am really looking forward to the next two years to see you all reach your full potential.

Hull City Football Trials for 4 Y8 Stars!

Four Y8 football stars were invited to take part in a trial with Hull City – looking to a possible future as a professional football player!

These talented young players were:

Billy Chadwick

Jacob Dale-Todd

Josh Thacker

Brad Wilson

They were invited to take part in a 6 weeks scheme where they attended training every Wednesday during term time. The boys reported that:

“We did a morning of work followed by an afternoon of football. The afternoon consisted of matches, training drills and indoor fitness. The morning of work covered pieces of study set by our Malet Lambert teachers to ensure we did not fall behind.”

“The 6 weeks trial was excellent and next year we are hoping to be involved again, every Wednesday throughout the year. This has been a great opportunity and we hope to progress to an even higher level from this experience.”

Well done boys – the Y8 Team are all behind you.

Girls Football at Malet

By Robyn Allan

This year has been very successful for girls football at Malet Lambert, the Under 16's team came 3rd in their league. We entered a 5-a-side tournament and were unlucky to lose to St Marys 5-4 in the final, however the highlight of the year was certainly when the under 16s team won the Hull Schools cup, a hattrick from Courtney Fee, a header from Robyn Allan and a strike from Tonya wild Storr secured the 5-0 win. The team thoroughly deserved the win as we have all trained well this season and we put 100% effort into every match and our efforts were rewarded with the cup.

Youth Enterprise Summit

By Abi Ingham

In May 2013, the first ever Hull and Humber Youth Enterprise Summit was held at Malet Lambert. It started off with a buffet lunch and over 160 business delegates attended, these included Blair Jacobs (who hosted the event), Oliver Wilson (managing director of Xuro Ltd) and Ruth Badger (runner up of The Apprentice 2006). Fifty pupils from across the school were also able to watch.

Many people spoke about their businesses and what they offer to help young people start their own. Two businesses run by pupils in the school also spoke about their journeys. It was a fantastic event organised by Mr. Logan. At the end of the event there was a chance to ask questions to a panel of business people.

The focus of the day was on the Big 13 enterprise skills which include; teamwork, financial literacy and risk management. A task was enforced by business, The Green Queens where each table of delegates were asked to design a foot to encourage others to reduce their Carbon footprint. The creative team from Engaging Education won the challenge and some say it was no surprise!

Throughout the day people were tweeting about the day using the #YES13. Overall there were 542 tweets from 90 different accounts praising the event.

Oliver Wilson said, "Life is about opportunities – take them as they come to you as you never know what or who may come along."

Action Jackson

By Jessica Horne

It was a while ago now, but hopefully, you will remember the hilarious, inspiring (and cheesecake addict) Action Jackson I Am Amazing visit. It was truly inspiring, as he told us why he was doing what he does, what made him want to help people and what his parents think of what he does.

He chose some people to go on the stage and tell everybody what they wanted to be when they were older. Some of these dreams were:

- Lawyers
- Singers
- Actors
- Business men/women

He gave brilliant advice and helped some people to share their talent. Acting on what he would do if somebody took something he loves, and somebody singing in front of the year group, he helped everybody in some way!

He taught the meaning of D.A.N.C.E. It basically says follow your heart and follow your dreams in life. If any students went onto the stage, they got a band that read; * I AM AMAZING *, and most of the school are still wearing them!

If you went on the trip to the city hall and saw him again, you would've seen all the other business people there too, to tell us about themselves and what they do. That was also interesting, as they made it funny and interesting, giving us things to think about and activities to do. It wasn't the same old "Oh, I did this, this, and this and now I'm rich!" It was more...personal than that. They told us that, yes, it's hard to reach your goals sometimes, but they also said that they never gave up, and now they are living their goals, as their lives!!

APPS Design Day

Ben Waudby and Callum Bratton

When we were in the APPS design lesson we thoroughly enjoyed it. We really liked all aspects of the day.

Ben Waudby

At the start I was really just interested in developing my ideas on the website called 'Business Apps.com'. In the end, I found that the functionality side of the APPS, and choosing the layout was absolutely amazing!

Explaining about the APP on the 'About My App' page was also good as we learnt that consumers would understand how much effort and determination was put into developing the APP.

I would like the chance to further develop my APP design because it would be an exciting opportunity to see how far I could take it!

Callum Bratton

My group created an APP to act as a guide. Most of us enjoyed it and most worked in groups. The purpose of this activity was to show us how people actually create APPS for business. It wasn't difficult but it took a bit of time to make sure it was the best it could be. All of this was done on a free website that anyone can sign up to.

Actions Speak Louder

Year 8 students visited the 'Action Speaks Louder' Environmental Conference at The Exchange. Six lucky people were able to learn more about our world:

ALIX BLYTH	8CHO
LARISSA POWELL	8ASP
ELLIE BUNN	8KAR
ZAC HOWARD	8JCU
DECLAN NOBLE	8EWO
WILLIAM SHAW	8PBE

Y8 Super Stars Pack their bags for Charity

This term the Y8 Student Council members at Malet Lambert School made the suggestion that we should choose some local charities to support through fund raising. Their chosen charities are: Cash for Kids – Hull, Oakwood Dog Rescue – Sutton Fields and the East Park Clock Tower project.

ASDA Kingswood kindly supported our community projects by giving pupils the chance to bag pack. Pupils were very grateful for this opportunity and a team of 13 enthusiastic bag packers attended the event. Proudly representing our school the pupils were an absolute credit, packing bags and handing out leaflets in their full Malet Lambert school uniform.

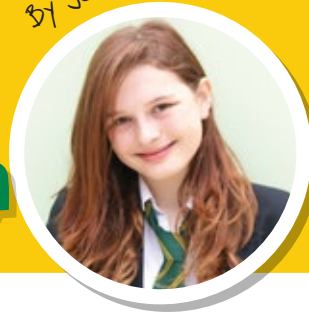

The event took place on Saturday 25th May, 11am – 2pm. Pupils were keen to play an active part in community projects and raised a total of £378.76 for their charities. It was excellent to see the pupils enjoying their bag packing session and confidently speaking to the public about their charities. Pupils also understood that by handing out leaflets which outline the work of the 3 charities, they were raising public awareness, further supporting them. For example, members of the public are able to walk dogs based at Oakwood Dogs Rescue, Sutton Fields, and can foster or adopt a dog whilst it is waiting to be re-homed (see their website for more details – www.oakwooddogrescue.co.uk).

Well done to the Y8 Malet Lambert School bag packing team – you were fantastic! A special thank you to Hannah Greenley who volunteered despite the fact that it was her birthday!

Costello Sports Day

By Jessica Horne

On the 26th of June, years 7 to 10 went to Costello Sports Day and played a number of field and track events. We had plenty of winners and supportive runners-up! Mr Beadle gave us an amazing set of music to listen to, and all the competitors had a good time!

Mr Beadle's beats were a mix of old and new music, from the killers to Pit-bull!

The Malet Adventure

By Daniel Hackett

A young boy, called Daniel, was new to Malet Lambert High School – he was happy, but he had a mission! Other people didn't know anything about Daniel's mission, they just thought that he was someone who needed to be treated differently.

Daniel was a spy. He had one mission – to be in the school rugby team! After months of following another student (and young rugby star) around, picking up new skills and tricks Daniel was finally allowed into the dressing room. What's more, he was actually named in the squad!

After 70 minutes played, Daniel got the ball from 10m out, he ran forwards, burst through the defence and scored the match winning try!

Malet Lambert were victorious and were crowned winners. Daniel was the most famous person in the school – and no longer had to be a spy.

Daniel the Spy

Gangnam Style!

Onesies, crazy dancing, rapping in French, this video had it all!

Earlier on in the school year we found a video on Youtube of some 6th formers from a school in the south of England doing a Gangnam Style video, but with the lyrics in French.

Being 8MI and one of the coolest French classes in the school, we thought “Hang on a minute, we can do better than that,” so we spent a few lessons practicing our French rapping, translating the lyrics (and a couple of minutes creating some funky moves).

When we felt ready, prepared and in the zone (and in our onesies), we crashed a year 7 class to practice our song on them, they loved it, some even joined in!

We recorded our song as a class, it only took one take as we had rehearsed so well, and then we went around the school to film the video.

The video was a great success and much better than the 6th Form one we had previously seen, it was so good that Miss Murphy showed it in assembly.

We are hoping to do another video to a French song that we listen to in lessons, this time with a boy band theme, we are going to call ourselves ‘Mauvaise Direction’ (Wrong Direction). Look out for us on X Factor!

School Recognition

A whole school recognition system is run electronically for pupils based on the 'recognition points' they receive in tutor time and in lessons.

In registration, form tutors award recognition points if students are wearing the full school uniform and they are fully equipped for lessons.

Students are awarded a point for punctuality to school for morning and afternoon sessions.

Students receive a recognition point from their subject teachers for every lesson they display 'good' or 'outstanding' behaviour and effort.

Students can receive up to 10 points per day and their points tally is tracked and shared with students by their form tutors.

Points would determine invitation to the prom in year 11 and events per year group for all students in the 'green' each term.

Recognition points can also get you on the end of year award trip to flamingo land or Alton towers. You can get on the trips by reaching the green section on the table.

Tennis Achievement

By Paul Jubb 8ASP

I train at Nuffield Health Centre 4 times a week. I train with my coach Johnny on a one to one basis twice a week and also participate in group fitness and one to one fitness sessions. In my tennis lessons I have been working on improving my intensity levels and work rate. I am developing my tactical skills which include how I play so that I am not giving away any sloppy points, only making a few unforced errors.

I am working on being like the tennis player David Ferrer. He plays with this game style and it makes opponents not want to play him because they know that they will have to work hard to beat him - which is what I am aiming to achieve. To do this I will need to work hard in my fitness sessions and also be organised off court. If I come onto the court late I will not have time to be fully warmed up and therefore won't feel fit enough to give 100% in the lesson.

I also play tennis in competitions at the weekends around the country. I am part of the Yorkshire U14 squad, competing in regional and national tournaments.

STEM Trip

The Science, Technology, Engineering and Mathematics (STEM) trip was a huge success!

Garthwest Visit

Year 8 students visited Garthwest Packaging in Hull on the 9th and 12th October 2012. The students who took part in this exciting visit, were:

William Bailey	8kar
Jessica Bennett	8cdr
Callum Bratton	8shn
Jack Bullement	8shn
James Buttery	8shn
Jack Climpson	8smi
Abigail Foston	8cho
Anna Harman	8hth
Macy Hart	8jcu
Millie Jacobs	8cho

Football Review

By James Watts

This year the football season has had its ups and downs. We have played well but have been unlucky, not achieving in the cup finals. Our Highlight has to be winning the Five-a-side Hull tournament; it's our third consecutive year winning the trophy, beating St Mary's in the final. Despite this, we were beaten by St Mary's in the Hull Cup final and the Hull League final, so we felt slightly hard done by, as we felt we were the better team. Everyone has played well this year, so it is hard to choose our players player of the season. Everyone has agreed, that the players player of the season is Luke Dunn.

Match Report: Malet Lambert School vs Vale Academy 02/05/2013

The 2013 U13's Humberside Cup final was played on 2nd May 2013, with Malet Lambert School of Hull, and Vale Academy of Brigg competing for the honours. The game was expected to be an exciting encounter with both teams scoring many goals in their run towards the final.

The game started with a fast pace and both sets of players keen to impress with their high energy work rates. It was this approach that led to the first goal of the game, as constant pressure and direct play from Vale resulted in a miscommunication in the Malet Lambert defence, leaving the Vale forward to slot home from close range inside 5 minutes.

Vale continued to apply the pressure in search of a second, however the central midfield pairing of Josh Thacker and Billy Chadwick started to settle the nerves for Malet, disrupting the Vale attacking play and quickly looking to create equalising opportunities. Within 3 minutes of going behind, Chadwick delivered a perfectly weighted long ball from the centre circle, finding Brad Wilson in the Vale penalty area. Wilson calmly brought the ball down before tucking away a placed left foot strike into the bottom corner and levelled it up at 1-1.

It was Wilson who again popped up to give Malet the lead after 15 minutes. This time a patient, well worked team attack resulted in Wilson picking the ball up just outside the area. With one touch to switch the ball onto his favoured left foot, he managed to curl the ball into the same corner he found earlier in the game and Malet were ahead for the first time.

The next 15 minutes showed again the high level of football on display from these year 8 boys, with both teams harassing and pressuring the other, yet both teams still playing excellent football and creating opportunities. And with an exciting half drawing to a close, Malet looked to be comfortable heading to half time 2-1 to the good. Then, as they had done from the first whistle, Vale applied the pressure, winning the ball back deep into Malet territory and drawing a foul on the edge of the penalty area. The Vale man stepped up, and delivered a powerful free kick into the bottom right hand corner to level the game at 2-2 on the stroke of half time.

After another intense, exciting period of play at the start of the second, Malet seemed to relax a little and their hard work started to pay off as they began to take control of the game. Billy Chadwick again showing his ability by taking on two back tracking defenders before striking the ball into the bottom corner from the edge of the box to again put Malet Lambert ahead.

Moments later, a two goal lead was secured as Eric Longhorn delivered a deep, out swinging cross from right back, with both teams challenging for the ball, it fell to Jacob Dale in the 6 yard box for him to put away his first of the game.

Malet looked comfortable and began to play some patient football, maintaining possession as they looked to control the game, however Vale again forced an error. As the ball was played back to Adam Shimmin in goal, the Vale forward hurried him into the error and stole the ball, the keeper then brought the striker down in an attempt to regain the ball. The forward managed to compose himself to place the ball well into the bottom corner to give hope to the Brigg outfit.

With both teams battling to gain control, Malet Lambert's continued pressure paid off as Vale seemed to tire. With 15 minutes to go, the score at 4-3, Malet started to pull away. Billy Chadwick, again the scorer with another fantastic long range strike. After picking the ball up on the left wing, he delivered a well struck ball swerving towards the far post, with nobody getting a touch in nestled into the bottom corner from 25 yards to again stretch the lead to two.

Chadwick turned provider for his central midfield partner with 10 minutes to go, shaping up to shoot from range again before sliding a through ball into the path of Josh Thacker who connected well first time to send the ball into the roof of the net from the edge of the six yard box, 6-3.

With time winding down, Billy Chadwick finished off another excellent Malet attack with his third assist of the game. This time a chipped through ball into the area to the on rushing Jacob Dale, who superbly brought the ball down with his left foot before smashing a right footed volley into the top corner from the penalty spot to wrap up the game and the trophy for Malet Lambert.

The game was played in good spirits and both teams were worthy of their final place. Malet Lambert lifted the trophy as U13's Humberside champions to complete the treble. This victory ensured the team all three local trophies available to them having already secured the Hull Schools league and cup competitions. A great season finished off with another great victory.

Netball

The Year 9 netball team has been incredibly successful this year. After winning every game, the league title was ours. This year there was huge amounts of pressure to maintain the winner's title after also winning in previous years. With our fantastic team spirit and dedication we battled hard against our main competitors, St. Marys, and eventually our hard work paid off and we are now proud to say we are league winners for the third time in a row.

Team members:

- Olivia Field
- Charlotte Brown
- Mary Medcalf
- Kate Marrow
- Elle Gunn
- Kate Buurman
- Emily Thickett
- Hannah Darvell
- Elisa Noble

Options

Jared spratling and James watts

Here at Malet Lambert when you reach year 9 you are able to choose one option out of the following...

- Art
- Business
- Child Development and Care
- Dance
- Digital Media—audio and visual or gaming and websites
- Engineering
- Expressive Arts
- Food
- French
- Health and Social Care
- Music
- Performing Arts
- PE or dance
- Product Design
- Travel and Tourism
- Textiles

However, you are also allowed a second option of either History OR Geography.

The options you choose will have a big impact on your school life as certain courses have exams whereas some subjects like art are mainly coursework. If you prefer exams then choose a subject that is exam based. However, if you prefer coursework then choose a course that is mainly coursework. But, make sure you choose something you will enjoy because you will be doing it for 2 years.

Year 8 Careers & Enterprise Activities

By Mr Millar (Careers Support Worker)

I started working at Malet Lambert in September 2012 to support Mr Logan with the Careers Education Programme. As well as giving lots of individual advice, particularly to year 11 pupils, I have taken many groups of pupils out of school on a variety of careers based visits.

October 2012 – Manufacturing Week

Visit to Garthwest Packaging

As part of National Manufacturing Week ten year 8 pupils visited Garthwest, a local company that prepares cardboard packaging and point-of-sale display stands. The pupils were given a tour and also had to design a cardboard money box. These had to be designed flat and then were put through a machine to crease and fold them. A very enjoyable and informative visit.

November 2012 – Global Entrepreneurship Week

Year 8 Enterprise Day

Enterprise Week (or 'GEW' for short) involved 100 pupils spending a day at the Exchange in Hull City Centre. Two practical tasks involved building 'Spaghetti Tower' and designing an App on a local environmental theme. These were complemented by a great motivational speech by Ruth Badger.

The 100 pupils were an absolute credit to the school. They were focussed, enthusiastic and very polite, particularly over lunchtime when we all queued up for the buffet of international food.

The Badger Sett Challenge

As part of GEW, Ruth Badger sponsors a competition for young budding entrepreneurs. Some year 8 pupils participated and learned a lot from the process. Although they never won, they can be proud to have taken part alongside Loui Fowler from year 10. Not only did Loui win the city wide competition, his banner idea has now been taken up by Hull FC and by One Hull of a Boat.

The two year 8 boys involved in the Badger Sett Challenge in November were James Tether & George Derbyshire.

November 2012

Above & Beyond Awards

Larissa Powell (8ASP) and Paul Jubb (8ASP) were nominated for special awards sponsored by the Smile Foundation charity. Part of the celebrations included photographs on the City Hall balcony.

March 2013

National Careers Week

Many classes in year 8 received presentations and activities from various local business people during National Careers Week.

'Fix Up Your Future' Event; Hull City Hall

Fifty year 8 pupils were invited to the City Hall to attend the finale of Careers Week and again meet Action Jackson! A series of motivational speeches from local business people was superseded by an inter school GANGNAM dance competition!

April 2013

Visit to Hull University HIVE (3D Environment) Facility

The Computer Science Department at Hull University invited the school to bring a group of pupils to view their facilities. Year 8 (group 8M5) spent the afternoon working on a games programming task followed by a demonstration of the HIVE 3D facility. Sadly, the lighting in the 3D area didn't allow for photos to be taken. The staff on the visit were amazed at how many pupils coped with the games task!

May 2013

AppsGO Workshop

A group of year 8 pupils stay behind most nights to work in the school's ICT department. Mr Logan is proud of their dedication so he arranged for Matthew Draycott, a local IT Games & App designer, to come in to work with the pupils. All pupils thoroughly enjoyed it and hopefully some further workshops might be arranged.

The day the Marines arrived!

Representatives from the Royal Marines came into school in May to work with pupils in their PE lessons. The atmosphere was buzzing and, as well as having a fun time, pupils carried out team based competitions which developed strength in different muscle groups. I'm sure all pupils slept well that evening!

June 2013

'Action Speaks Louder' Conference and Competition

A group of six year 8 pupils represented Malet Lambert at an environmental conference at the Exchange in Hull City Centre. As well as developing a better understanding of environmental issues, the group participated in a role play competition. Our pupils were allocated the role of an Oil Company and they had to present an argument to other groups which would allow them to extract oil from within a rain forest yet help the area develop an environmental strategy. Other schools represented local landowners, anti-pollution groups etc. After a heated debate, judges decided that Malet pupils had put forward the best case!

Youth Enterprise Summit

Malet Lambert School hosted the first ever Humber Youth Enterprise Summit. Some terrific motivational speeches, again headlined by Ruth Badger, were watched by 15 representatives from year 8 (as well as other year groups).

I have really enjoyed my first year working at Malet Lambert School and I'm looking forward to getting to know pupils in next year's year 9 classes. Year 9 is a big year as option choices have to be made. Traditionally, Year 9 is the time when pupils start to think more about what they would like to do in the future. I am here to give advice and guidance so I look forward to working with all of you.

JOHN MILLAR (CAREERS SUPPORT WORKER)

The Beep Enterprise Challenge

By Abbie Everett

Six students were sent to the Franklin College, Grimsby. These six pupils were; Abi Ingham, Emily Medcalf, Megan Moore, Abbie Malton, Shaunna Burnaett and Leighanna Teal Dawson, all were interested in business and enterprise.

When they got there they had talks with adults who have their own very successful businesses. After that, the pupils from our school worked with business and student mentors to help the six pupils develop their business skills.

They were given a plain cardboard box, and with this they had to create a product which could have been anything, our students decided to make a remote controlled solar powered lawnmower and they called their product "LawnBuddy". Whilst making the product some of the team were discussing marketing schemes, pricing, and the best way to present their product to five judges.

Abi Ingham said, "We had an excellent day out and worked really well together as a team." Overall, our six students won this for our school.

Above & Beyond

On the 27th November 2012, Year 8 students visited the 'Above and Beyond' Awards day at Hull City Hall.

The following students were lucky enough to come on the trip, representing Malet Lambert:

WESLEY MURRAY 8ASP

LARRISA POWELL 8ASP

PAUL JUBB 8ASP

DYLAN RYMER 8CCL

Le Voyage à Paris

Last March, around 40 Y9 and & 10 pupils from Malet Lambert School went on a trip to Paris which was organized by the MFL and ICT Department.

The trip was lively and fun for the Malet Lambert pupils taking part. In France, pupils visited a number of landmarks and immersed themselves in the Parisian life style. The pupils obtained an unforgettable real-world language and life experience.

In his evaluation of the event, Mr Bell said that the trip was very educational, enjoyable and engaging for both pupils and staff involved.

We would like to take this opportunity to congratulate all the pupils (and staff!) who took part in this educational activity, as without their amazing enthusiasm and inquiring minds the trip wouldn't have been a success.

Next year our year group will have the chance to attend this fantastic trip. Look out for the letters and grab the opportunity!

Mr Longwa
MFL Teacher
Malet Lambert School

Careers Week

Careers week at Malet Lambert was a spectacular success. Over 1,200 students were involved in some form of careers, enterprise, motivation, further education or skills session and we were so pleased to see the impact that these had on the young people who took part.

However, there is no time for us to stop! Careers Week 2014 planning is already underway and we already have confirmation from a number of our supporters in 2013.

Mr. Logan – Business Champion/Head of Careers

Rugby Review

By Oliver Stephens

This year has been a good year for the Year 9 rugby team with great wins across Yorkshire with our captain Reece Taylor, winning 46-8 against Kingswood, getting us through to the Yorkshire cup. It gave us the determination to go on further. We then got to the quarter final in Leeds where sadly, we lost. However, we were proud of ourselves to get this far in the Yorkshire cup and proud to be a part of Malet.

We have decided on our players of the year based on how they played throughout the year. We have chosen four players with great team work and determination who we think have been the best.

1. Owen Curtis with "Man of Steel"
2. Joseph Sherwood with "Players Player"
3. Kieron Wilson with "Coaches Player"

And Number 4: James Greendale with "Most Improved"

Softball Superstars

Sports Review

By Shannon McGahey

Rounders

Team:

- Shannon McGahey (back stump)
- Courtney Bedford (bowler)
- Robyn Allan (first base)
- Emily Trim (deep fielder)
- Lilly Higgins (second base)
- Eryn Brockwell (deep fielder)
- Mary Medcalf (forth base)
- Molly Butcher (deep fielder)
- Amy Knott (deep fielder)

The Year 9 girls rounders' team was an incredible example of the fantastic team work and commitment of Malet Lambert. After weeks of hard training the team visited St Marys for the tournament. Hoping to maintain their title from last year, the team played amazingly, winning their first 4 matches. Each player showed good team work and brilliant skills and through their hard work they made it to the final. Facing St Marys, the team knew they would be very tough competition as they won back in year 7, neither team wanting to lose, they both put in a huge effort. The teams drew in the final and after a discussion it was agreed that both teams would have 9 good balls each to determine the winning team. Unfortunately, it was St Marys who came through to win by just half a rounder. Disappointed that they didn't win, the full team were pleased with our performance and getting through to the final.

Sports Day

Sports day is always a very popular day, not only is it competitive and serious, it's a fun and exciting day. The competition is between the forms in each year group. Pre sports day takes place about one week before; the top 8 for each race go through to compete at Costello. In each race the winner gets 10 points, 2nd 8 points etc. when it come to the team race the points are doubled. Many records are broken throughout the day and everyone there is being supported and cheered on. It is always a close ending between the form groups and there is always a great team spirit between everyone.

To keep up to date with all the sports you can follow the PE department on twitter: @maletlambertpe and use #maletmachine!

Year 8 Football

Malet Lambert Year 8's won the treble this year as they beat:

Sirius 8-0 in the league cup final

Sirius 12-0 in the Hull Cup

Vale Academy 7-3 in the Humberside Cup Final at South Holderness School

The team got to the National Cup Final at Stamford Bridge last year but after a hard battle they were pipped at the post and lost 2-1. The team and school were really proud that they achieved such a high standard to reach the final. This year they lost in the Quarter Final of the competition. The score was 3-1 after extra time. This was a big upset for the team as they had high hopes for the game at Stamford Bridge. The boys are determined that Y9 will be their year.

The Y8 football squad is:

Lewis Brett

Billy Chadwick (Captain)

Jacob Dale-Todd

Josh Drury

Jack Dyle

Luke Glover

Finley Hoyles

Paul Jubb

Eric Longhorn

Cameron Park-Blackburn

Adam Shimmin

Harry Smith

Harvey Talbot

Sam Thames

Josh Thacker

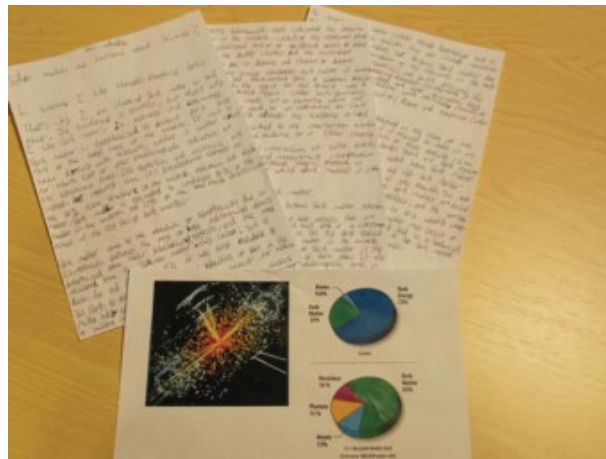

Brad Wilson

Coach – Mr Ripley & Mr Hughes

Year 8 Science Competition

In March 2013 a Yr 8 Science competition was launching asking the question “What makes you curious about Science?” There were lots of entries from pupils, using different areas of science they found interesting, the first place prize went to Ben Waudby of 8SHN and the second place prize was shared by Jessica Barrett of 8KAR and Abigail Foston of 8CHO.

Ben wrote a 3 page essay about dark matter, he did lots of research and in his essay included historical discoveries linked to theories on dark matter and presented his work in a way that was easy to understand. It was very clear from Ben’s essay that he was curious about dark matter and had actually gone and done the research to find out more and clearly understood the content as he could explain it clearly to readers of his work, this is why he was awarded first place.

Jess and Abi submitted a joint entry which was about space including why Pluto is no longer classified as a planet. They created a very visual 3D piece of work which included a model Earth and Moon, there were lots of facts on their presentation that were easy to understand. Their explanation of why Pluto was no longer a planet was explained in a straight forward and clear way. They included in their work the fact that we are still discovering new things every day and this is one of the reasons that studying space is so interesting. The presentation and content is why the girls were awarded second place.

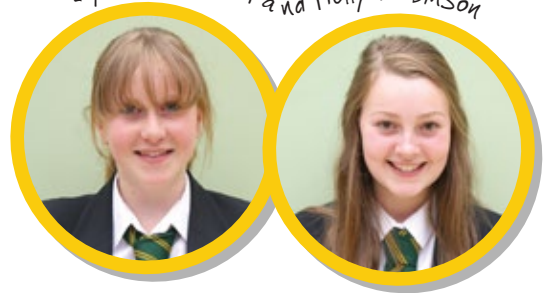

Top Books to Read from 2012/2013

By Kiera Birch and Holly Robinson

The Hunger Games

The Hunger Games is a science fiction novel by American writer Suzanne Collins. It is written in the voice of 16-year-old Katniss Everdeen, who lives in the post-apocalyptic nation of Panem, where the countries of North America once existed. The Capitol, a highly advanced metropolis, exercises political control over the rest of the nation. The Hunger Games are an annual event in which one boy and one girl aged 12–18 from each of the twelve districts surrounding the Capitol are selected by lottery to compete in a televised battle to the death.

Kiera: Okay, one word to sum up The Hunger Games... Epic! It's a fantastic book and the film is great too. There are three books in the series, The Hunger Games, Catching Fire and Mockingjay. I recommend all of these books.

Holly: I've read The Hunger Games more than once, and I never get bored! It's a great book and I agree with Kiera, it's epic.

Geek Girl

Harriet Manners knows that a cat has 32 muscles in each ear, a "jiffy" lasts 1/100th of a second, and the average person laughs 15 times per day. She knows that bats always turn left when exiting a cave and that peanuts are one of the ingredients of dynamite. But she doesn't know why nobody at school seems to like her. So when Harriet is spotted by a top model agent, she grabs the chance to reinvent herself. Even if it means stealing her best friend's dream, incurring the wrath of her arch enemy Alexa, and repeatedly humiliating herself in front of impossibly handsome model Nick. Even if it means lying to the people she loves.

Kiera: I actually haven't read this book, but it looks like a great book so I'll have to read it sometime.

Holly: I read the book not long ago and I couldn't put it down, the story-line is good and it was interesting to read.

Diary of a Wimpy Kid

Diary of a Wimpy Kid is a realistic fiction novel by Jeff Kinney. It is the first book in the Diary of a Wimpy Kid series. The book is about a boy named Greg Heffley and his struggles in middle school.

Kiera: I've read the whole series and seen some of the films too. The books are funny and the drawings inside are awesome too. I love these books.

Holly: I've read a few of the books in the Diary of a Wimpy Kid series and they are very funny. They're fun to read and I always laugh when reading them

The Twilight Saga

Twilight is a series of four vampire-themed fantasy romance novels by American author Stephenie Meyer. It the life of Isabella "Bella" Swan, a teenage girl who moves to Forks, Washington, and falls in love with a 104-year-old vampire named Edward Cullen. The series is told primarily from Bella's point of view, with the epilogue of Eclipse and Part II of Breaking Dawn being told from the viewpoint of character Jacob Black, a werewolf.

Kiera: I've read the whole series and seen all of the films, the books are good and the films are too. I enjoyed reading them.

Holly: The films are great but personally I think the books are better and I don't really think that Twilight is for boys.

Horrible Histories

These books are bursting with historical facts and all of the gruesome yet interesting information and there's also books called Horrible Science.

Kiera: I've read a lot of Horrible Histories books, I learned some new stuff and they are fun to read.

Holly: I've read some of these books too and they're quite gross but interesting and funny.

Global Entrepreneurship Week

By Abbie Everett

From our school 4 groups were sent to Hull University to participate in a project and develop their teamwork skills.

In groups they were given a random object and asked to transform it into something useful – that could be sold.

One group from our school was given a tire pressure gage and they managed to transform it into a scented radio which they then presented to a panel of judges, one was called Ruth Badger – she came second on The Apprentice.

Mr Logan said, "Teachers thought that it had helped improve pupils' personal skills such as teamwork, planning and communication."

That was...
