7MBG - Eagle

Mr Berger

My specialist subject

I teach music, which is a subject I am passionate about because it allows me to express myself through my creativity, and I believe that everyone should be allowed to experience the magic of finding their own means of expression!

My journey

I've been teaching for three years at Malet Lambert, and previously I worked in another school in Hull. Previously I've been a professional freelance musician in Brazil where I lived for nearly three years.

My interests

Besides music, I love gardening, growing my own vegetables and cooking. I also have a strong passion about sustainability and the current environmental crisis, and I help lead the Sustainability Committee in Malet, to which every student is welcome!

My advice to make transition easier

- Use your planner from day one! Use it to organise your day, keep track of your homework and your daily timetable
- Make a daily schedule: don't let the amount of subjects and the new responsibilities overwhelm you
- Talk and share your feelings! It's OK to be stressed, worried or overwhelmed; I'm here to help you out make the best of your time at Malet
