

Meet your tutor

7KHA - Eagle

Mrs Hartley

My specialist subject

I teach English and I've always loved it because I think it is a magical language with the most incredible vocabulary. I also absolutely love exploring all things literature (books, poems, plays). The more I've studied it, the more I've learnt to adore it even more.

My journey

I am new to Malet this September, coming from a different Hull school. Before becoming a teacher I was a live-in nanny/governess for over 15 years, which was brilliant!

My interests

I am from South Africa originally so although English is my first language, I also speak Afrikaans and a bit of Xhosa. I have also been very, very lucky to have travelled around the world (for work), and have lived in America for a year too. I am a big fan of the Queen and the Royal Family so think this is the best country in the world.

My advice to make transition easier

Do what I'm doing and look at the website, watch the videos and try to learn as much about the school as you can so that you feel you know it before you get there. It's made me more and more excited about September, even though I am also a little bit nervous about learning lots of new names and new systems and where everything is. I've met some of the other teachers already though and they are so incredibly lovely that I know I will love it at Malet Lambert, as I am sure you will too! :)
