

Meet your tutor

7JLA - Lion

Mrs Lawrence

My specialist subject

I teach Science and I've always loved it because not only was it my favourite subjects when I was at school but I have always been fascinated by the natural world and how/why things work.

My journey

- I have been a teacher at Malet Lambert School for 13 years and before that taught at another local secondary school.
- I've done many different jobs before becoming a teacher, doing everything from working for the London fire brigade to owning a fish and chip shop.

My interests

- I love travelling and have visited countries in every continent around the world except Antarctica. (It's far too cold for me there!)
- I enjoy spending time with my grandchildren.
- I like to bake but my children tell me I'm not very good, but I keep trying.
- I am a West Ham football fan, having lived next door to their old home ground when I was at university.

My advice to make transition easier

- Remember everyone at Malet Lambert was new here once so don't be afraid to ask as many questions as you need to, to help you find your way here. Everyone will be more than happy to help you out.
- Make sure you are organised, check your bag the night before to make sure you have the equipment you need for the following day and look at your planner to make sure you know what is coming up.
