

# Meet your tutor

7BAN - Rose

Miss Anderson

## My specialist subject

I teach Modern Foreign Languages (French and Spanish) and I love my subject because learning languages can open doors to so many different opportunities. Learning a new language can be difficult at times but you will be extremely unique and valuable to future employers if you can speak another language.

I think that it's very interesting and important to expose ourselves to another culture and different countries. There is so much out there to explore that I know you will love finding out about.

## My journey

Like you, I am new to Malet Lambert this year. So, if you have some worries about starting a new school, the chances are that I have the same worries too but as a tutor group we'll all transition together.

## My interests

I have lived in both France and Spain. Moving away was an extremely daunting experience but it has provided me so many opportunities and I now have friends across the world. This experience has also given me the 'travel bug'. I love travelling to different countries and experiencing new cultures.

I am a huge sports fan and I know that a lot of you are too which is great! In my spare time, I play Netball for a local club which I love.

I also love to bake! During lockdown I have made all sorts which my neighbours have all benefitted from.

## My advice to make transition easier

Be organised. It's a big change moving onto a timetable and having lots of different classes so it will help you if you can be as organised as you can. This will help you settle in to your new routine. I love everything stationary and organisation so I'll be happy to help you with this.

The most important advice I could offer you is don't be nervous. Put yourself out there to make new friends. My door will always be open for any questions and problems you may have.
