

## Keeping Safe

Your safety is very important and it will be one of the things that your parents/carers will worry about. Agreeing and following your own set of rules will make sure that you are safe and healthy.

**Think about:** Crossing roads, cars seeing you easily, when you will get home, Who'll be at home? Texting or ringing someone so that they know you are OK, going to other people's houses after school, going to the park, if you are running late, buying sweets or fizzy drinks, using the internet. There may be others that are specific to you that you want to include too.
